

Kenneth W. Wachter
Curriculum Vitae, 9 February 2009

PERSONAL INFORMATION

U.S. Citizen, born 13 January 1947, Brooklyn, New York.

Married to Bernadette Bell, 27 August 1982.

Office: 2232 Piedmont Avenue, Berkeley, California 94720 (510-642-1578)

Electronic Mail : wachter@demog.berkeley.edu ; Fax 510-643-8558

Web Site: <http://www.demog.berkeley.edu>

EDUCATION

A.B., Harvard, 1968, *magna cum laude*, History and Literature.

M.A., Oxford, 1971, by special decree, Applied Mathematics.

Ph. D., Cambridge, 1974, Statistics (Trinity College).

Ph.D. Dissertation : "Foundations of the Asymptotic Theory of Random Matrix Spectra," supervised by D. G. Kendall and J. F. C. Kingman, 4 June 1974.

AWARDS

- Distinguished Service Award, Division of Social Sciences, U.C. Berkeley, 20 May 2008.
- Alumni "Letter in Life" Award, The Pingry School, 10 June 2007.
- Distinguished Teaching Award, Division of Social Sciences, U.C. Berkeley, 11 October 2002.
- Member of the National Academy of Sciences, elected 27 April 1999.
- Fellow of the American Association for the Advancement of Science, February 1997

- Fellow of the American Academy of Arts and Sciences, elected April 1996.
- Mindel Sheps Award from the Population Association of America for Outstanding Contributions to Mathematical Demography, April 1988.
- Fellow of the American Statistical Association, August 1986.
- Phi Beta Kappa, Harvard “Junior Eight,” June 1967.
- Harvard Prize for History and Literature, June 1967.
- Presidential Scholar, named by President Johnson, June 1964.

CHRONOLOGY OF POSITIONS

- 1985 – Professor of Demography and Statistics, U.C. Berkeley.
- 1997 –2008 Chair, Department of Demography, University of California, Berkeley.
- 1979–1985 Associate Professor of Demography and Statistics, U.C. Berkeley.
- 1977–1979 Miller Fellow in Statistics, University of California, Berkeley.
- 1977–1978 Associate Professor of Statistics, Harvard University.
- 1974–1977 Assistant Professor of Statistics, Harvard University
Head Tutor of Statistics 1975-1977; Resident Tutor, Eliot House
Research Associate, Harvard Center for Population Studies.
- 1971-1974 Research Fellow, St. Catherine’s College, Oxford,
Applied Mathematics
- 1970-1971 Keasbey Memorial Scholar, Trinity College, Cambridge.
- 1968-1969 Associate Member of Technical Staff, Bell Telephone Laboratories,
- 1964-1968 Undergraduate, Harvard College, in History and Literature;
senior thesis on the German poet Stefan George.
- 1958-1964 Student, The Pingry School, Elizabeth, New Jersey.

LANGUAGES

German, French, Latin.

PROFESSIONAL APPOINTMENTS

Member at Large, Section on Statistics, American Association for the Advancement of Science, 2009–.

Chair, Committee on Population, National Research Council, 2003–2008.

Member, Committee on Data Priorities for Behavioral and Social Research on Aging, National Institute on Aging (evaluation of demographic data sets).

Visiting Professor, University of California Center in Washington, D.C., Spring 2007.

Editorial Board, *Proceedings of the National Academy of Sciences, U.S.A.*, 2000–2006.

Ecole des Hautes Etudes en Science Sociales, Paris, Professeur Invité, May–June 2006.

Chair, Fachbeirat, Max Planck Institut für Demografische Forschung, Rostock, Germany, 1999–2004.

Committee on Population, National Research Council, 1999–2008.

Advisor, Population and Reproductive Health Partnership, UC Berkeley–Ahmadu Bello University, Nigeria, 2006–.

Advisory Panel, The American People Series (Census 2000), Russell Sage Foundation and Population Reference Bureau, 1999–2004.

Board of Directors, Population Association of America, 1999–2002.

Chair, National Research Council Workshop on the Biodemography of Fertility and Family Formation Behavior, 2000–2003.

Chair, Finance Committee, Population Association of America, 2002.

John J. Carty Award Committee, National Academy of Sciences, 2002.

Institut d'Etudes Politiques de Paris, Enseignant Invité, 1986,1993,2001.

Court Appointed Scientific Experts Program, American Association for the Advancement of Science, 1999–.

Selection Panel, Los Angeles Times Science Book Awards, 2000–2002.

Board of Directors, Social Science Research Council, 1993-2000.

Presidential Search Committee, Social Science Research Council, 2000.

Research Associate, Freshpond Institute, Cambridge, Massachusetts, 1998-1999.

Board of Advisors, Mountain View Research, Los Altos, California, 1996-2001.

National Research Council Workshops on Biodemography, Co-Chair, 1995-1997.

Mathematical Population Studies, Co-editor, 1991-2000, Editorial Board 2003-2006.

Theoretical Population Biology, Associate Editor, 1993-2002.

University of California Press, Series Co-editor, 1985-1994.

National Institute on Aging, Chair, Site Visit Review of Program Project on Oldest-Old Mortality, April 1992.

Special Advisory Panel on 1990 Census Adjustment, U.S. Department of Commerce, 1989-1991.

National Research Council Committee on National Statistics, 1985-1991.

National Science Foundation Panel on Measurement Methods and Data Resources, 1981-1985.

Population Association of America, Sheps Award Committee, 1988-1992.

National Academy of Sciences Panel on Immigration Statistics, 1983-1985.

National Bureau for Economic Research, Associate, 1979-1992.

International Union for the Scientific Study of Population, Research Committee on Family and Life Cycle Demography, 1982-1985.

National Research Council Working Group on Statistics for the Report on the Ten-Year Outlook for Social Science, 1985-1988.

National Institute on Aging, Study Section on Forecasting, 1988.

National Institute on Aging, Chair, Site Visit Review of Program Project on Oldest-Old Mortality, March 1989.

UNIVERSITY SERVICE

Chair, Department of Demography, UC Berkeley 1997–2008.

Committee on Prizes of the Academic Senate, 1988-1993, 1996-1999; Chair 1990-1993.

Alan Sharlin Memorial Committee, 1987-1990; 1995-8; Chair, 1990.

Graduate Advisor, Demography, 1982-1991; 1992-1993; 1994-1995; 2000.

Chair, Migration Search Committee, International and Area Studies, 1995-1998.

RESEARCH INTERESTS

Mathematical demography, demography of aging, computer simulation of demographic and social processes, biodemography, evolutionary theories of longevity, racial and ethnic classification, housing distributions, census adjustment, familial impacts of AIDS, mathematics of feedback systems, kinship forecasting, nonlinear dynamics, multivariate data analysis, sample surveys, historical social structure, statistics in endocrinology,

CONSULTING

Consulting Statistician, U.S. Department of Justice, Civil Division, Thompson vs. HUD, District of Maryland, Civ. No. MJG95-3090, 2002-2004.

Consultant, Sideman and Bancroft, San Francisco, 2001-2005.

Expert Witness, City of New York *et al.* vs. Dept. of Commerce *et al.* 88 Civ. 3474, U.S. District Court, Eastern District of New York (1990 Census Adjustment), 1991-1992.

Expert Witness, Cuomo versus Baldrige, 80 Civ. 4550, U.S. District Court, Southern District of New York (1980 Census Adjustment), 1983-1984.

Statistical Consultant, Weinberg Consulting Group, Washington, D.C., meta-analysis, F.D.A. applications, exposures to chemical risks, 1988.

Statistical Consultant, Bell Communications Research, Morristown, N.J., multivariate analysis, c. 1984-1985.

Statistical Consultant, Bell Telephone Laboratories, Murray Hill, N.J., data analysis of shareowner distributions, productivity measurements, 1975-c.1984.

COMPLETED GRANTS

- “The Mathematical Demography of Biodemography” Project Leader: K. W. Wachter, Project 3 of Program Project (James Carey, Principal Investigator) National Institute on Aging Project Grant AG-P01-008454 from Program Grant P01 AG022500 (\$360,781), 15 September 2003 to 30 June 2008.
- “Career Award Program in the Demography of Aging” Principal Investigator: K. W. Wachter National Institute on Aging Grant K12-AG00981-01 (\$983,923). 30 September 1999 to 31 August 2006.
- “Lifecourse Impacts of AIDS on Zimbabwe’s Elderly” Investigator: K. W. Wachter, Supplement to P-30 Center Grant in the Economics and Demography of Aging, Ronald Lee, Principal Investigator, National Institute on Aging Grant AG (\$45,887) 1 June 2001 to 31 May 2002 (31 December 2002).
- “Heritability of Longevity in Historical Peasant Europe” Principal Investigator: E. A. Hammel Co-Principal Investigator: K. W. Wachter National Institute on Aging Grant R01AG16074-01 (\$72,910).
- “Grade of Membership Models in Aging Studies” Principal Investigator: K. W. Wachter National Institute on Aging Grant R01AG14023-01 (\$43,181) 10 January 1997 to 31 December 2000.
- “Projecting Kinship Resources for the Elderly” Principal Investigator: K. W. Wachter National Institute on Aging Grant R01AG09781-01 (\$420,387) 30 September 1992 to 31 August 1998.
- “Applications of Non-Linear Population Models in Biology and Demography” Principal Investigator : K. W. Wachter Alfred P. Sloan Foundation Grant 89-12-10 (\$85,815) 1 January to 30 June 1990.

- “Stochastic Variability and Human Population Regulation” Principal Investigator: K. W. Wachter National Institute of Child Health and Human Development Grant 1 R01 HD 22432-01 DBS (\$34,225) 1 May 1987 to 30 April 1989.
- “Applications of Non-Linear Population Models in Biology and Demography” Principal Investigators : K. W. Wachter and Wayne Getz Alfred P. Sloan Foundation Grant 86-6-18 (\$200,000) 1 July 1986 to 31 August 1988.
- “Estimating the Limits to Human Life Expectancy: A Workshop” Principal Investigator: K. W. Wachter; Conference Organizer: Sheila R. Johansson, National Institute of Aging Grant 1R13AG07684-01(\$23,406) 1 March 1988 to 28 February 1989.
- “Cross-Disciplinary Activities in Population Studies” Principal Investigator: Kenneth W. Wachter, Alfred P. Sloan Foundation Grant 85-6-21 (\$24,700) 1 Sept. 1985 to 28 Feb. 1987.
- “The Roots of Lotka’s Equation” Principal Investigator : Kenneth W. Wachter, National Institute of Child Health and Human Development Grant 1R01HD17949-01 (\$25,620) 1 July 1983 to 30 June 1985.
- “Applied Probability Theory” Principal Investigator : Kenneth W. Wachter, National Science Foundation Grant MPS75-O9835 (\$5,572) 1975 to 1976.
- “Demographic Household and Community Microsimulation” Principal Investigator: Kenneth W. Wachter, National Science Foundation Grant SOC76-80014 (\$41,100) 1977 to 1979.
- “Computer Simulation of Demographic and Familial Change,” Principal Investigator : P. Laslett; Associate Investigator K.W. Wachter, British Social Science Research Council, (1000 pounds) March 1972 to September 1973.
- “Computer Simulation of Demographic and Social Processes: SOC-SIM” Principal Investigator : E. Hammel; Associate Investigator K.W. Wachter, National Science Foundation Grant GS38293, 1973-75 and 1976-79.

(NIH Training in the Responsible Conduct of Research, Certificate 990802155)

BOOKS

1990 *Height, Health, and History : Nutritional Status in the United Kingdom, 1750-1980*

by Roderick Floud, Kenneth Wachter, and Annabel Gregory,
Cambridge University Press, Cambridge, England,

1978 *Statistical Studies of Historical Social Structure*

by Kenneth W. Wachter, with E.A. Hammel and P. Laslett,
Academic Press, New York.

EDITED VOLUMES

2008 *Biosocial Surveys* edited by Maxine Weinstein, James Vaupel, and Kenneth Wachter, National Academy Press, Washington, D.C.

2003 *Offspring: Human Fertility Behavior in Biodemographic Perspective*,
edited by Kenneth Wachter and Rodolfo A. Bulatao,
National Research Council, National Academy Press, Washington, D.C.,
March 2003.

1997 *Between Zeus and the Salmon: The Biodemography of Longevity*
edited by Kenneth W. Wachter and Caleb Finch
National Research Council, National Academy Press, Washington, D.C.
November 1997.

1990 *The Future of Meta-Analysis*
edited by K. W. Wachter and Miron Straf
Russell Sage Foundation, New York City, N.Y.

1987 *Family Demography : Methods and their Applications*
edited by John Bongaarts, Thomas Burch, and K. W. Wachter,
Clarendon Press, Oxford.

ARTICLES

- 2008 “Biodemography Comes of Age”, by Kenneth W. Wachter, *Demographic Research*, 19(40): 1501–1512, 26 August 2008, online at www.demographic-research.org/Volumes/Vol19/40.
- 2008 “Age Structure Changes and Extraordinary Life Span in Wild Medfly Populations”, by James R. Carey, Nikos T. Papadopoulos, Hans-Georg Müller, Byron I. Katsoyannos, Nikos A. Kouloussis, Jane-Ling Wang, Kenneth Wachter, Wei Yu, and Pablo Liedo, *Aging Cell*, 7: 426–437.
- 2008 “The Future of Census Coverage Surveys” by Kenneth W. Wachter, in *Probability and Statistics: Essays in Honor of David A. Freedman*, Volume 2, edited by Deborah Nolan and Terence Speed, Institute of Mathematical Statistics, Beachwood, Ohio, pages 234–245.
